## Farmland Presrvation Update

With the recent preservation of the 76 acre Dolores Kernan Farm, the township has now topped 8,000 acres of preserved farmland and has another 1,000 acres approved for settlement by the State's Agriculture Development Committee. This continues to place Upper Pittsgrove as a leader amongst the state's 566 municipalities and helps Salem County be number one, out of 21 counties state-wide.

Permanently maintaining a large amount of farmland is very important if we are to continue to attract and keep all of the businesses that provide services to our farming community. We are fortunate to have nearby tractor dealerships, fertilizer suppliers, chemical companies and produce markets that are essential to today's agriculture.

Jack Cimprich, Mayor

## NEW ADDITION

Daretown Fire Company took delivery of its new fire engine on June 11, 2012, purchased by the Township. The engine is a Pierce Impel, built by Pierce Manufacturing out of Appleton, Wisconsin. It features a 1500-gallon per minute pump and carries 1000 gallons of water. The custom cab has five seats with air packs, plus the driver and two jump seats, so it can carry a total of eight firefighters.

Featuring four 1-3/4 inch attack lines plus 1100 feet of 4-inch diameter water supply line. The engine is set up to be the initial attack engine and carries a variety of tools, a smoke ejection fan, a toxic gas meter and an infrared camera. The engine was purchased without any hose, tools or radios as a cost saving measure. Some of those items were transferred from the old 1991 engine that was taken in trade. Daretown Fire Company, as a cost savings to the Township, purchased all attack line hose plus the tools.
